Dear Parents and Carers

We have recently reviewed our procedures for the management of bumps / injuries above the shoulders as it is not always immediately obvious if there are more serious issues.

As parents / carers know their children best we have put in to our procedures that for any bump / injury that occurs above the shoulder we will immediately contact the parents and give them the option of coming to assess their child for themselves. **This is not a request for you to automatically come or to take your child home but gives you the option to do so and decide if you wish to seek any further medical assistance.**

In the instance that the injury is serious we will of course contact emergency services as well as you.

After half term we will be analysing the bumps and injuries that have occurred and will further review the process. Following this review we will share the updated policy with you.

If you have any questions please do not hesitate to ask.

Yours sincerely

Justine McMinn
